

## **Cover work for 10 April Lesson 1**

### **6 Respect**

1. Finish the quick quiz (stem and leaf plot/ mean mode median)

Quiz paper and graph paper are on the teacher's desk.

\*Horizontal frequency graph = bar graph with the horizontal axis as frequency

(Challente can help to collect all the paper back by the end of the lesson)

2. Finish the Mathletics set tasks

3. If time allowed, continue the mini project on "in which year do students grow most?"

check wiki for the most updated data)

\* If Vien is back today, Katherine can explain to her about the coming assessment and she need to fill in the questions and return the assessment paper to the white tray.
